# ALTERATIONS – SMALL PROJECTS PERMIT

## Application Requirements

Alterations (renovations) that meet the scope of the *International Existing Building Code* and that will be made to a legally occupied building should follow this simplified application process:

1. **Submit one (1) copy of the APPLICATION FOR SMALL PROJECTS PERMIT.**
2. **Submit payment of the amount calculated below** via check or money order made payable to Light-Heigel & Associates. Be sure to accurately detail all of the work to be done under the building permit.

**If you are seeking a permit for a roof replacement and the work will include replacement of some or all of the sheathing, the type and thickness of the existing and replacement material must be specified in your description.**

After reviewing this information, we will either issue a UCC Building Permit or contact you regarding work that appears to fall outside the scope of the International Existing Building Code. If a permit is issued, we will also inform you of inspections that must be passed, before a certificate of occupancy can be issued.
